SUMMARY

Software engineer dedicated to building and optimizing websites and mobile applications for businesses across diverse industries. With a sharp eye for detail and a dedication to staying ahead of trends, I aim to deliver solutions that anticipate future challenges, ensuring sustained success in the dynamic digital environment.

EXPERIENCE

Software Engineer 2023-2024
Cengage Learning

- Played a pivotal role in the development team by implementing new features, addressing bugs, and maintaining the overall codebase, contributing to the platform's ongoing enhancement and stability.
- Working on transforming JavaScript files to Typescript within the Cengage MindTap school platform, enhancing codebase robustness and maintainability.
- Transitioned Enzyme tests to Jest and RTL, improving testing efficiency and ensuring the reliability of code changes.

Web Developer 2021 – 2023
BrainDo LLC

- Worked with the development team to create, manage, and produce quality client applications on the web and mobile devices using React and React Native.
- Handled multiple projects simultaneously while ensuring all projects were completed within the deadline date.
- Worked on implementing AWS endpoints on multiple projects using API Gateway and AWS Lambda.

Web Developer 2019 – 2021
Freelancer

- Built & currently manage a custom designed website for a restaurant in Philadelphia.
- Concepted a CRUD application for a meal management system.
- Created a multitude of personal side projects with a focus on React front-end technologies.

EDUCATION

Liberal Arts 2011 – 2013
Philadelphia Community College
